

EVANS MODEL 7300

DRAW BOLT POCKET CUTTER

A PERFECT FIT FOR ANY
COUNTER TOP OPERATION

ELIMINATES THE NEED TO
FLIP THE TOP WHEN ROUTING
THE POCKETS

PNEUMATICALLY OPERATED
CLAMPS HOLD THE TOP
SECURELY DURING THE
CUTTING OPERATION

EASY GUIDES ENSURE
PERFECT ALIGNMENT

The Evans Machinery Model 7300 Draw Bolt Cutter is a simple, accurate, and safe to operate, and is designed to route your draw bolt cut-outs in less than one minute on either counter tops or bar tops. No adjustments are required when routing either left or right 90, 45, or 22 1/2 degree cuts. Simply mount the fixture and activate clamp cylinders which hold the top in place.

Guide router, mounted on linear bearing guides for easy movement, through the aluminum template. The Evans 7300 is designed to guide from the top while at the same time routing from the bottom, insuring the accuracy required and allowing for a extremely safe operation. Certain to save time, as only one pass is required to complete the cutouts.
